

ZANACK

With Guns Blazing, Twin Hawk Streaks Across The Sky!

It was in the year 193X that enemy forces planned to attack and conquer country R.

A small oasis town, S, was the target for the raid. To assist the enemy forces in conquering this town, they drugged the inhabitants' food and water supply so as to render them defenseless.

There were, however, those inhabitants who were suspicious of foul play and stopped eating and drinking the tainted food and water. They began to write SOS messages and attached them to carrier pigeons and fish with the hopes that someone would come to their aid, but all the messages were found and destroyed.

The bravest members of the town began to prepare for a fight. They started work on a simple base in the forests where they hoped to be camouflaged from the enemy. Soon, the Twin Hawk Anti-conquest Flying Corp. was formed.

Just before final completion, the base was discovered by the enemy and the base was attacked! It looked as though the defenders of the town had run out of time, so the Twin Hawk Flying Corp. was launched into action before it was completely operational!

6-way lever

Button A (Shoot)

Button B (Helper)

• The power increases each time a target is taken.

Increase power

Helper

1 up

Attack techniques using Button B

1 Press Button B once and 6 helpers appear.

2 If a helper is hit by the enemy, the helper plunges out of the sky toward the enemy.

3 After the helpers have been called up, pressing Button B again causes them to swoop toward the enemy.

4 If Button B is pressed before the formation is completed, and after the button is pressed once, the helpers become bombers.

• Players can win up to 10 credits.
